**RE: Variance Request from Article VII, Section 7.4 Lot Frontages  
142 Farms Subdivision Preliminary Plat  
SWE Project No. 1011-008-22**

To whom it may concern:

We would like to request a variance from Milam County's Subdivision and Development Regulations, Article VII, Section 7.4, for lot frontage requirements on a county-maintained road for our residential subdivision project, 142 Farms Subdivision. We are proposing lots within the cul-de-sac that do not meet the minimum 100' lot frontage requirement. With the above mentioned variance request, the remainder of the proposed subdivision will be developed, constructed, and maintained in accordance with the terms and conditions of Milam County Subdivision and Development Regulations.

We are requesting to allow smaller lot frontage requirements within the cul-de-sac lots due to:

- (i) Milam County Subdivision and Development Regulations does not have a defined section for cul-de-sac lot frontage widths.
- (ii) The proposed cul-de-sac is located at a high point, with stormwater draining away from the proposed Right-Of-Way and eliminating the need for driveway culverts for the cul-de-sac lots.

Your consideration of this request will be greatly appreciated. If you have any questions regarding this project, or if you require any additional information to assist you in your review of this project, please do not hesitate to contact me at (512) 312-4336.

Respectfully submitted,

Henry Juarez
